"Develop a passion for learning. If you do, you will never cease to grow." – Antony J D'Angelo

Excellence in academics is the hallmark of a good institution. In the previous session (2019-20), our students have made us proud by scoring 100 percent in class X as well as in the Class XII Board Exam. CBSE has recently commenced an initiative of lauding and recognizing the best schools which have achieved an overall high standard of excellence by certifying them as 'CBSE – New Generation Schools'. We are proud to have received this recognition from CBSE and are committed to maintain our high standard of excellence.

We do not encourage any of our students to take tuitions or be overburdened after school hours as we believe that our in school academic systems and standards are very strong.

All this was done to make students 21st century-ready citizens, by empowering them with the competencies to understand, analyse, evaluate, interpret and innovate various real-life situations that they require to face in the world outside the classrooms or an environment beyond their schools and homes. The art integration explained some ways to teach all the main subjects through art and craft. The creative arts had made learning subjects fun and interesting.
